

Zema Readily Cured by a Simple Home Treatment.

A simple clean remedy that can be used in the home is what every person desires who is suffering from eczema. You can now have that remedy and get instant relief, and be cured permanently by Zema, a clean vegetable liquid for external use. Zema cures skin diseases by drawing the germs and their poisons, that cause the disease, to the surface of the skin and destroying them, leaving the skin clean and healthy. Mr. F. S. Case, the druggist, will give you a booklet and will explain to you how a great many cases of eczema and other forms of skin diseases have been cured by this simple home treatment.

In History.

An expression something like this may be seen frequently just now in Ohio newspapers: "The coming session of the legislature will go down in history," etc. etc. If it is anything like the special session of last winter the legislature itself will go down before the people at the ballot box next November, and that would be the best thing that could happen to it.

A legislature with a Democratic majority in both branches to assist Governor Harmon in the house cleaning this state so long needed will go down in history to the credit of the people of Ohio.

Another legislature with a majority in both branches that will block or retard reasonable reforms at the dictation of machine bosses, as the present legislature has done, will be no better than the present legislature.

A legislature with a Democratic majority in one branch, and a Republican majority in the other to block and hinder investigation, as the last preceding legislature did, will be worse instead of better than the present legislature.

Do it right next time, and give Governor Harmon a legislature that will co-operate with him during his second term in place of the present legislature, the Republican majority of which in both branches seems to reach its highest purpose when it plays peanut politics. With such a result the coming session of the legislature will not "go down in history" in vain.

This is Worth Remembering.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Remember the name, Foley's Honey and Tar, and refuse substitutes. Bort & Co.

C. C. Weist, M. D.

DISEASES OF THE EYE

Your eyesight is too precious to be trifled with. Defective vision is often caused by disease. Eyes treated by harmless methods. Glasses fitted and furnished.

DISEASES OF WOMEN

Dr. Weist has a special remedy that has been used in hundreds of cases of Leucorrhoea, Painful Menstruation, Displacement, Etc., that had been given up as hopeless by others, but which responded readily to his treatment. It may be used successfully at home and is perfectly harmless. No unnecessary operations or expensive hospital treatment.

DISEASES OF MEN

Minute attention given to all diseases peculiar to men, especially those suffering from early excesses of youth, overwork, nervous debility, loss of confidence and memory, trembling, cold hands and feet, and other Private Diseases, such as Venereal Discharges, Blood Poison, Etc.

CONSULT DR. WEIST!

He has an established and permanent practice in this community. His practice is limited to Chronic Diseases and he has spent practically all his life in the study and treatment of same.

He treats a larger number of people than would be possible if he saw his patients daily or weekly, instead of monthly.

His practice consists mainly of rare and difficult cases which have failed to receive satisfactory results elsewhere.

Two-thirds of his practice is secured for him by former patients, who recommend him to their friends. If he thinks he cannot benefit you he will say so. He will spare no effort on his part to cure you. His charges are very reasonable.

REMEMBER

That Dr. Weist charges absolutely nothing for Consultation or Examination. You can visit him and receive his best attention. Everything confidential. Don't fail to see him!

More Danville Proof.

Jacob Schrahl, 432 South St., Danville, Ill., writes: "For over eighteen months I was a sufferer from kidney and bladder trouble. During the whole time was treated by several doctors and tried several different kidney pills. Seven weeks ago I commenced taking Foley's Kidney Pills, and am feeling better every day and will be glad to tell anyone interested just what Foley's Kidney Pills did for me." Bort & Co.

Richest Woman in the World

New York, Dec. 23.—Mrs. Edward H. Harriman is the richest woman in the world today. A conservative estimate of the estate left by her husband today, places its value at \$220,000,000.

When the will was read, following the funeral of the railroad magnate, the value of his possessions was placed at \$140,000,000. From a trustworthy source it is learned that the real value was over \$200,000,000 at that date.

The discrepancy in these figures is accounted for by the informant in this manner: "Just before death Mr. Harriman transferred to his eldest son, Walter A. Harriman, and Mrs. Harriman about \$50,000,000 worth of stocks, possibly the financier's Union Pacific holdings. The balance of his property was left to Mrs. Harriman by the will probated in Orange County.

"Since Mr. Harriman's death the securities which were largely held by him have appreciated in the market to a large extent. Figuring conservatively, the increase in value would be fully \$20,000,000."

Hilliards, O., R. F. D. No. 2, June 15, 1909.

I personally know of many cases that Nature's Creation has cured, but none of them ever got along more rapidly than I have. One month ago I could scarcely walk and today I am working as usual. My doctor ruined my stomach with croton—he also tried to keep me from taking Nature's Creation, notwithstanding that this wonderful medicine has cured many cases that he had treated unsuccessfully. Nature's Creation has helped my stomach so that I can now eat anything I want without any trouble at all. I shall always be glad to praise and recommend this wonderful medicine for consumption and weak lungs.

Yours truly,

C. J. Oia.

Board of Health Meeting.

The Tenth Conference of the State Board of Health with representatives of local boards of health will be held in Columbus, January 20 and 21, 1910.

This conference is for boards of health and health departments of all cities and for all villages which had a population of 3000 or more at the 1900 Census.

An interesting program is being prepared specially adapted for cities and large villages.

Zelaya Surrenders.

Rama, December 23.—Crushed in defeat and overtaken in an effort to retreat to a place of refuge, the entire forces of General Zelaya were captured at 9 o'clock to night by the army under the command of the insurgent leader, General Estrada.

Pressing its point of vantage the victorious army tomorrow will march on Managua.

Six hundred men were left dead on the battlefield at Rama and 1,900 were taken as prisoners.

General Zelaya's army surrendered with all munitions of war.

General Castillo and General Gonzales, who fought so bravely at Tatumilla Hill on Monday and Tuesday, are among the prisoners.

Medical aid has been sent by the American forces at Bluefields, but no marines have been landed from the battleships at anchor in that harbor.

Big Holiday Business.

[State Journal—Friday.] Holiday business in Columbus is 25 per cent greater than last year, when gauged by the amount of express and mail matter handled.

By the same standards, all records for the city may be shattered before the books are closed and normal conditions are restored, some time next week.

There is more money in Columbus than last year. Work is more steady and wages better. The same explanations are offered on every hand. Christmas money sent abroad is one of the signboards of better times. There is more of it and many more senders than last year.

Wednesday was the big day on outgoing shipments. Last night practically marked the finish of extraordinary shipments by mail and express. As the last of the enormous quantities of Christmas shipments were leaving the local offices they passed the crest of the flood of incoming packages. This is the big delivery day.

Automobile Show.

Over half a million dollars worth of automobiles were seen on the floor of Goodale Auditorium when Governor Harmon turned the switch Christmas night which threw the light into thousands of electric light opening the show which is being held under the auspices of the Columbus Automobile Club.

One of the exhibits contains \$40,000 worth of automobiles, while others have exhibits ranging from \$15,000 to \$35,000. Only American made cars are shown at the show, and this feature is unique in the history of automobile shows.

That Columbus is automobile show enthusiastic is evidenced by the interest that is being taken by the general public. Columbus is not alone in its enthusiasm for the many letters received from the surrounding cities indicate that a larger attendance than was counted on may be looked forward to.

For the first time in fifteen years the floor of the immense auditorium has been scrubbed, and the difference in the color is apparent.

Harry D. Sims assistant treasurer of the club, has been appointed as fifth number of the show committee, which consists of Perin Monpeny, chairman, Herman Hoeter, Norman Acby and Dennis Kelly.

Change the Hocking River.

Gallipolis, O., Dec. 23.—Members of the Finance Committee, including R. F. Edwards, of Cleveland, Ohio; F. R. Gusweiler, of Cincinnati; D. J. Schurr, of London; W. D. Dittmar, of Holmesville, and Jos. Justice, of Ottawa, are investigating the Ohio Hospital for Epileptics at this city, preparatory to making up the appropriation bill. This institution includes more than 40 buildings, and a special study and treatment are made of cases of epilepsy, being the original and only institution of its kind in the United States. Dr. Wm. Pritchard, Superintendent of the institution, reports most wonderful results in the care and treatment of many cases of epilepsy.

The committee has just concluded its inspection of the Ohio University, at Athens, and the Athens State Hospital. The university is in a most flourishing condition, being taxed to its capacity in enrollment.

A most interesting situation is presented to committee on the part of the Athens State Hospital by a request that the Legislature change the course of Hocking River. It is suggested that a straight cut along the general direction of the river be made which will eliminate a long meander bend through state property, thus causing the river to flow, and give the institution all the bottom land and also overcome the actual floods. If this movement is favored it will be the means of the Legislature changing the course of the Hocking River much like the days of Moses parting of the Red Sea—Enquirer.
